CHILD DEVELOPMENT & HEALTH INFORMATION

Staying Healthy this Season starts with Washing Hands

---Our top priority is to use soap and water when washing hands for arrival, toilet and snack. Sometimes we need to use hand sanitizer in the classroom. Due to the alcohol content and "keep out of reach of children" Ohio state licensing requires us to obtain signed parental consent in order for us to use hand sanitizer on your child. Do we have your signed form? (Signed with enrollment forms...)

DISCIPLES CLASS NEEDS HELP WASHING HANDS BEFORE CLASS - SIGN UP TO TAKE A TURN

Thanks for calling or texting 1-614-209-4554 if your child will be staying home due to illness or travel; we will post any confirmed communicable disease reported from your classroom.

Child Development tips.....

Did You Know? Children who learn to play well and work well with others tend to do better in all areas as they grow older. A key component in our program is to guide children and support their overall development. Attention to a child's social emotional development has been a traditional strength of early childhood. Ohio's Early learning development standards provides an academic atmosphere in preschool; however we remain dedicated to providing opportunities to help children play cooperatively and grow in confidence.
